

Morgan Hayashi

Davis, CA 95616 • 510-555-3663 • mkhayashi@ucdavis.edu

EDUCATION

Bachelor of Science in **Biotechnology**
University of California, Davis

Anticipated Graduation Date: June 2027

RELEVANT COURSEWORK

Cell Biology, Genes and Gene Expression, Introductory Microbiology (Lab), Sequence Analysis in Molecular Genetics (Lab), Applied Bioinformatics, Organic Chemistry (Lab), Advanced Molecular Biology

SKILLS

Laboratory: SDS-PAGE, PCR, ELISA, Gas chromatography, UV/VIS, Spectrophotometry, Microscopy, Western Blot, Pipetting, Buffer preparation

Language: Conversational in Spanish and Japanese

Computer: Microsoft Office, Google Workspace, Python

RELEVANT EXPERIENCE

Clinical Pathology Intern, Department of Pathology and Laboratory Medicine, UC Davis Health, 5/25-9/25

- Developed a buffer system for liquid chromatographic isolation of pesticide metabolites in urine samples
- Evaluated patients using a urinalysis to determine glucose levels and diagnose for potential diabetes
- Accurately performed gas chromatography-mass spectrometry on purified newborn samples to screen for genetic metabolic disorders
- Fostered a welcoming environment for patients by actively listening and providing emotional comfort
- Trained newer interns on performing a urinalysis, clearly explain each step to ensure their understanding
- Analyzed data in Excel and presented slides to the rest of the lab, pointing out surprising findings

Public Health Intern, Davis Community Meals and Housing Davis, CA, 9/24-3/25

- Organized and distributed supplies and donations, including food and clothing, at a transitional emergency shelter to aid individuals experiencing homelessness
- Interacted with shelter users of various ages and backgrounds through active listening and diverse communication styles to create a welcoming and safe environment

ADDITIONAL EXPERIENCE

Team Lead, Raising Cane's, Davis, CA, 6/24-9/24, 6/25-9/25

- Processed customer transactions accurately and maintained clear communication with coworkers to efficiently handle a high volume of customers each day
- Practiced and upheld food safety and sanitation procedures to ensure a hygienic and compliant work environment
- Trained new employees on safety and operational procedures, demonstrating leadership and the ability to convey technical information clearly, resulting in promotion to Team Lead

ACTIVITIES

Member, BioInnovation Group (BIG), UC Davis, 9/24-present

Member, Food Tech Club, UC Davis, 1/25-present
