

Solomon Young

Davis, CA | (916) 676-7788 | sgyoung@ucdavis.edu

EDUCATION

Bachelor of Science, Environmental Policy Analysis and Planning, Minor in Professional Writing

University of California, Davis

Expected Graduation June 2028

Relevant Coursework: Geographic Information Systems, Environmental Impact Assessment, Urban and Regional Planning, Technical Writing, Applied Statistics for Biological Sciences

SKILLS

- Advanced proficiency in AutoCAD, ArcGIS, and Microsoft Office Suite (Word, PowerPoint, Excel)
- Experience working with CEQA, NEPA, and CWA

RELEVANT EXPERIENCE

Environmental Planning Intern, PlaceWorks, Berkeley, CA

Jun 2027 - Sep 2027

- Created three technical reports weekly for projects subject to the National Environmental Policy Act (NEPA) and California Environmental Quality Act (CEQA).
- Led tasks related to data collection, research, documentation, and technical analyses including noise analysis and urban forestry coverage.
- Moderated two public outreach and stakeholder involvement events to 50+ community members and stakeholders, gathering public input on a downtown planning project.

Urban Forestry Intern, UC Davis Arboretum and Public Garden, Davis, CA

Jan 2027 - Jun 2027

- Planted and cared for trees for a research project focused on preparing the campus tree canopy for climate resistance.
- Maintained data collection of 100+ research trees and their growth progress on outdoor test sites with Airtable.
- Researched and presented findings to the internship cohort about identifying native tree species and urban planting considerations for ArcGIS StoryMaps campus tree tour.

Copywriting Intern, She Leads, Sacramento, CA

June 2025 - August 2025

- Designed a 19,000-word entrepreneurship curriculum, providing instructions on how to host business educational conferences for college and high school students.
- Produced technical modules on user research, tracking metrics, marketing strategies, sponsorships, and legal affairs.
- Approved and edited all written website content to improve branding and marketability of the mentorship program.

SPECIAL PROJECT

Neighborhood Site Design Project, Sustainable Urban Planning course, UC Davis

Apr 2025 - Jun 2025

- Independently conducted site analysis to create a housing site plan of the student family apartment complex using sustainability-centric urban development and landscape architecture concepts.
- Presented a final report including the following content to graduate-student teaching assistants: Opportunities and Constraints Map, Land Use Plan, Site Design, and Character Photos.
